

FIRE RATED DOORS AND SMOKE RATED DOORS

MODELS FR 1665/2670 & SFR 1665/2670

Our **Fire Rated Rolling Doors (FR)** are designed to provide up to 3hr protection while providing a safety, practical solution and great appearance; they are certified under the UL10B protocol.

Our **Fire Rated and Smoke Rated Rolling Doors (SFR)** are designed not only to protect your area against fire (for up to 3hr) but also to be activated by and stop the smoke leakage, as a certified UL1784 product.

Both products can be offered for openings of small or medium size (1665 model) but also we offer them for Oversize openings up to 30' wide (2670 model).

They are available in different mounting types to fit your special design, but also can be ordered as Impact Resistant (Large Missile shot at 50' feet per second) and Rated for Hurricane Wind Load Pressures of up to ± 70 p.s.f. under the very stringent High Velocity Hurricane Zones (H.V.H.Z) requirements of the Florida Building Code and Miami Dade County Building Code.

Other alternative features are Insulation, customized finish in powder coat paint or Stainless Steel. You can contact our sales department for more options or information.

ROLL UP DOORS MOUNTING TYPES
